Title: UTILIZATION OF SUBSCRIBER DATA IN A TELECOMMUNICATION SYSTEM

REQUEST FOR RECONSIDERATION

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In response to the Office Action dated May 17, 2005, Applicant requests review and reconsideration of the patentability of the pending claims based on the following remarks.

Claims 1-11, 13-22 and 24-30 were rejected under 35 U.S.C. 102(e) as being unpatentable by Denenberg et al. (U.S. 20040248570; hereafter "Denenberg") and rejected claims 12 and 23 under 35 U.S.C. 103(a) based on Denenberg and Oh (U.S. 6,591,458).

Applicant traverses the rejections because the cited prior art, analyzed individually or in combination, fail to disclose, teach or suggest the claimed subject matter. For example, the cited prior art fails to disclose, teach or suggest the claimed method including "establishing a connection between the serving network and the terminal by means of a subscriber application comprised by the terminal; establishing a data transmission connection between the terminal and said subscriber database; checking the right of the terminal to use said subscriber database; [and] transmitting subscriber data relating to said subscriber database to the terminal, to the serving network, or to the terminal and the serving network in response to the terminal having the right to use said subscriber database," as recited in independent claim 1 and its dependent claims. Similarly, the cited prior art fails to teach or suggest the claimed telecommunication system wherein "the terminal and the serving network are configured to establish a connection by means of a subscriber application comprised by the terminal . . . to establish a data transmission connection between the terminal and said subscriber database;
